A TIME OF HOPE AND PRAYER

Hong Kong, Jan. 1, 1901, 12:15 a. m.-The dawn of the twentieth century was welcomed here by the ringing of bells and the blowing of steam whistles in the harbor.

Chicago, Dec. 31. -Tonight in Chicago will eclipse all New Year's eyes in the past in noise and in the gladsome welcome which will be extended to the new century. : All classes and denominations will unite in making the demonstration the greatest that has ever been seen in any American city. The celebration will not be confined to the hundreds of watchnight services which will be held, but it is the purpose of thou- TO IMPROVE WORK sands of citizens to get out and take part in an event which only happens once in a hundred years. Harrison has said that he will not mind the noise for once, and so the people are at liberty to take any means they desire to make the oc casion a memorable one.

Welcome to Be General.

Not only in Chicago, but also all

over the country, extraordinary preparations have been made to meet the new century with appropriate ceremonies. In any church of any prominence, in every town and city, the people have made preparations to hold watch night services.

The meeting in Chicago will be the

largest of any kind held here, and will begin at hine o'clock this evenig in the Coliseum. William Penn Nixon will preside. The oration of The oration of the evening will be delivered by General John C. Black, and a chorus of fifty will furnish music.

At 11:58 o'clock the entire audience will join in singing "Old Hundred" and at 12:01 a detachment from the naval reserve will fire a salute. The greetings from the rulers of the great powers have all been received some of them having come by cable. The latest ones received are from President Diaz of Mexico, the Pope, Emperor Francis Josef of Austria, King Leopold of Belgium, the Mikado of Japan, the King of Denmark, and Queen Victor-The consuls of these respective countries in Chicago will read the greetings, and as each is read the band will play the national air of the country from which it comes.

Nikola Tesla, the great electrical inventor, is to make the announce ment of a new invention upon which he has been working for sixteen months at the Coliseum meeting.

President Will Retire Early. Washington, Dec. 31.—There will be no official recognition of the passing of the nineteenth and the birth of the twentieth century. The president and the members of his cabinet have intimated that they will have such a hard day on Jan. 1, 1901, attending the various functions which custom marks out for them, that it will be even impossible to attend even the watch meetings held in their respective churches. The president and Mrs. McKinley will retire very early tonight and the new year and century will be ushered in during their slumbers. The New Year festivities are the most trying of the offcial season.

Mgr. Martinelli, the apostolic delegate, will begin to celebrate a solemn high mass at St. Patrick's this city, at midnight precisely. A moment before the august ceremonies begin he will dispatch a telegram to Pope Leo XIII in the name of all of the Roman Catolics of the United States. Thus the three aged sovereigns of the world will be especially remembered by their highest representatives at this capital.

Royal Greeting in New York. New York, Dec. 31,-The new century will be given a royal greating in Gotham tonight. Although some of the features had been planned—notably the big watch meeting of the Red Cross in Madison square garden have been postponed, there will still be enough of welcome for the comminutes that pass as the centuries come and go.

New York City's official greeting to the twentieth century will, in a large measure, be an electrical one. Electric lights in festoons will emblazon the city hall from flag staff to portico, and Father Time in his flight from one century to another may read as he runs, written in electric bulbs on the facade of the municipal building, which has stood for nearly a hundred

There will be festoons of electric bulbs in red, white and blue depending from the flag staff on the roof of the building, and other festoons along the facade. At the center of the roof there will be a star eight feet high, containing 150 lights, and emblematic of the Empire state. Twelve other stars of lesser magnitude will be fixed to the front of the building to represent the other twelve original states. In all about 4,500 lights will be used in the electrical SEARCH WILL BE CONTINUED

OF BURAL SCHOOLS

Some Recommendations in State Sup't Harvey's Forthcoming Annual Report —Training System.

Madison, Wis., Dec. 31.—Some important recommendations for legislation will be made in the forthcoming report of the State Superintendent L. D. Harvey. He discusses the township system of school government which he has advocated for years, and gives considerable space to the question for better teachers for the public schools.

The common schools, their present backward state, their needs, and the means of supplying the needs, and im proving their conditions, indeed, might almost be called the key note of the report. Among his recommendations some of the more important

.dontana Ranchmen.

Miles City, Mont., Dec. 31.—Masked and m ounted raiders killed 2,000 sheep on the range of Tooney creek, a tributo 'y of Tongue river, near the Wyoming line, at daybreak yesterday. The sheep belonged to Daupt and Selway, who are ranging about 5,500 head in the Otter creek country. The sheriff and deputies started this morning on their 100-mile trip overland. One of the Daupt and Selway herders had his flock of 2,000 sheep at the upper corral on Tooney creek, and was awakened before daylight by shooting and yelling. Eleven men mounted on horses were riding around the band of shrep and shooting into them. There are conflicting reports as to the methods employed by the raiders. One statement is to the effect that the sheep were driven into a cut and piled up in a struggling mass, those not being killed by the fall being dispatched by clubs. Another story says they were milled to death; that is, driven in ones were smothered.

CHANCES ARE GOOD FOR W. G. WHEELER

Janesville Man Likely to Pull Down the U.S. District Attorneyship.... Some of the Candidates.

Madison, Wis., Dec. 31.-Republican politicians and lawyers about the state are watching with interest the contest for position of United States district attorney for the Western Wisconsin district. The recent death of D. J. Jones of Sparta leaves the position open, and as is usually the case the names of a number of well known lawyers are mentioned as possible successors.

Among the Madison lawyers who ire spoken of are Frank Hall, Frank Wooten and E. M. Lewis. From other cities the following names come as either aspirants for the position or as possible appointees: E. C. Higbee, Frank Winter and G. H. Gordon of La Croose, W. H. Fleet of Merrill, C. J.Smith of Viroqua, State Senator C. A. Lamoreux of Ashland and Assemblyman W. G. Wheeler of Janesville.

Of this list the gossip of the poli icians indicates that the current opinion has selected Mr. Highee and Assemblyman Wheeler as the two most likely to receive the appointment.

INAUGURATION OF R. M. LA FOLLETTE

Elaborate Ceremonies at Madison on Monday, January 7.

TO BE NOTABLE EVENT

Legislature Meets Wednesday, January 9-Speculation as to Probable Officers.

THE NEW LAWS PROPOSED

Madison, Wis., Dec. 31-On Monday, Jan. 7, one week from today, Robert M. LaFoliette will be inaugurated governor of Wisconsin. As he is Milwaukee, Dec. 31.-The strangest the first native born governor of the and most interesting prisoner ever state and a Madison man—the citizens being in charge of the ceremonies-it will be a notable event and unusual efforts are being made to make it brilliant, says observer in the State Journal. General George Bryant's idea of summoning the militia of the state was not responded to heartily. The weather is bad 'for handling a large body of troops. However, the local company will figure in the parade and an effort will be made to get here all the ex-governors— Lewis of Columbus, Taylor of Cottage Grove, Hoard, Peck and Upham.

The fears that Governor Scofield would not enter in to the festivities but sulk in his tent because he disapproved Mr. LaFollette's conduct, proved unwarranted. Governor Taylor, who preceded Governor Luddington, suffered from a similar sensitiveness, but went a certain length in the inauguration ceremonies without hurting his pride. So Governor Scofield will escort his predecessor from the executive chamber to the assembly chamber, where Chief Just tice Cassoday will administer the oath and bring the new governor back to the executive chamber, there to leave him in power.

It is certainly a pretty token of a man's ability to conquer himself and respect the dignity of his office that the proud lumberman thus yields re his friends. Hats off to Scoffeld!

Dancing on a Democratic Basis. The expenses of the inauguration are paid out of the contingency fund which the executive office carries. Ex-Senator R. M. Bashford is the general chairman, as he has been before; and this is an assurance that the affair will go off pleasantly. General Bryant and Mr. Bashford will ride with Governor La Follette

the capitol. The practice of having the state officers approach Madison from Milwaukee way will be continued and a special train will reach Madison about 11:30a. m. A band of music will Victoria, B. C., Dec. 31.-News is head the line of carriages to the capitol and after rendezvousing executive chamber, the new state officers, all properly escorted by citizens and headed by the old and new governor, march to the assembly chamber, where their women await them and the crowd; and "Our Bob" LaFollette will swear to behave himself officially certainly for two years,

and for all I know, for six. Ball, in the Armory.

The old way was for the procession then to return, and each state officer to receive in his own office. The new feature this year is the postponing of this reception to the hours from 3 to At night occurs the ball in th e university armory, which is a democratie affair that anybody can go to, and wil be made more so this year by the fact that no programmes will be made out in advance, the effect of which was to mortgage all the pretty girls weeks ahead. This year no one will know whether the next dance is a Virginia break down, a waltz, or a Johnny-get-your-gun, and homely girls wil have a chance.

The Next Administration,

The tax commission had proposed to issue its report in advance to the members of the legislature that they might be posted; but the work has kept the commission busy up to the last minute. It is generally believed that the report of this commission will be vigorous rather than tameby no means wildly radical, but upto-date. In other words the tax commission regards itself as no pro forma body, but created to meet an ar gent need.

The assembly and senate convener Wednesday and after organizing a ong adjournment will be taken over Sunday to allow the appointment of the committees. Mr. Ray, the La Crosse banker, will again preside over the assembly-which, by the way, was a raceful concession on Mr. La-Follette's part, for no doubt, he could have forced a more pronounced supporter of his into this position had he wished. But Mr. Ray will make an

REVIEW THE WORK OF PAST CENTURY

SUNDAY NIGHT SERVICES AT CONGREGATIONAL CHURCH.

What Has Been Done Along Scientific, Political and Municipal Lines .-- Ad dresses by Dr. Buckmaster, A. E. Matheson and Mayor V. P. Richardson....An Interesting Meeting.

The last Sunday night's service of the 19th century in the Congregational church was devoted to a review of what had been done along scientific political and municipal lines in the last hundred years. The large audience present was both intent and interested for the presentation of each subject was made by a gentleman whose business necessitated that he keep himself fully informed and therefore he was able in the brief period allotted to him to give his hearers the cream of his researches.

Advance in Medical Science. After the usual devotional services the Rev. R. C. Denison gave the outline of the evening's program and introduced Dr. S. B. Buckmaster who spoke on Medical Progress in the Last Century. While the advance of medical science has been very great, it is a remarkable fact that the first half of the century shows only one great discovery-that of anesthesia and that was not rut into practice until 1846-'47 and '48. The last date marks the discovery -chloroform.

The last thirty years have been the brilliant period of medical and surgical progress, owing to discoveries in bacteriology which have revolutionized surgical methods. The researches of Pasteur, Koch and other noted bacteriologists were given at some length and their practical nature as affecting the industrial and commercial interests of the world. The isolation of active medical principle from the crude drug was dwelt upon as illustrated by the separation of the quinine from cinchons, mor phine from opium, and the utilization of the former waste products of coal tar, now of value in the form of antikamnia, sulfonal, tryonal, phenaci tine and the analine dyes.

What the coming century might pro duce could only be guessed at, but the speaker thought the tendency would be in the direction of preventative instead of curative treatment.

International Relations.

A. E. Matheson, who spoke on International Relations, stated that this meeting was not called for a patriotic endorsement of the methods of our country, but for a review of the world's progress.

He alluded briefly to the unification of Germany, of Italy, the deliverance of the states on the Danube from dominance by Turkey, and the rise of Japan to be a progressive na-The discontinuance of privateering, the more humane conduct of war, the endorsement of arbitration for settling international controversies, the advance of diplomacy in the direction of expedition and sincerity, all received their due atten tion.

During the time mentioned the predominance of the Anglo Saxon element was apparent and much of the progress of the world was due to the Christian methods of Great Britian and the United States. The speaker believed that practical Christianity would be the key note of the coming century, and that the two great nations referred to would be in world's a sense a dictator of the

Municipal Life and Ideals.

Mayor V. P. Richardson thought he had been given a kindergarten task when first asked to speak on Municipal Ideals and Life, but found on investigation that volumes might be written on the subject and then only scratch the surface. He gave an idea of how the United States had advanced in population since 1800 by comparing the New York, Boston, Philadelphia, Baltimore and Washington of that date with the same cities of today. Now 159 cities contain five times more inhabitants than whole country did then.

Municipal government of former times, the direct government by the people, was described as the most mearly perfect type of government known to man. This, however, was only possible in small cities and had given way to indirect government through city councils. Heretofore a sentiment had existed hostile to the one man-power and the mayor of a city had very little authority, but now the tendency was growing to make one man the responsible head of the city government as well as the presiding officer.

Mr. Richardson concluded with a forecast of what municipal government might and probably would be in the years to come which was so alluring that his hearers wishedtheir advent upon this earthly sphere had been delayed fifty years or so, but in sober fact what he gave as a fanciful dream is not any further ahead of what life is now than the present conditions of life, a. least here in the United States are superior to those prevailing at the dawn of January,

practically painless.

"When I wrote to you in March, asking advice as to what to do for myself," says Mrs. Ella Reynolds, of Guffic, McLean Co., Ky., "I was expecting to become a mother in June, and was sick all of the time. Had been sick for several months. Could not get anything to stay in my stomach, not even water. Had mishaps twice in six months, and threatening all the time with this one. Had female weakness for several years. My hips, back and lower bowels hurt me all the time. Had aumbuess from my hips down. Had several hard cramping spells, and was not able to do any work at all. I received your answer in a few days, telling me to take Dr. Pierce's Pavorite Prescription. I took three bottles, and before I had taken it a month I was able to help do my work. On the 27th of May my baby was born, and I was only sick three hours, and had an easy time.

RING IN THE NEW.

Some one has said that the high way to perdition is paved with good resolutions. If the statement is true, and it is necessary to have the highway paved, the material used is of good quality, for good deeds are so closely allied with good resolutions that the former are almost always dependent on the latter. The men and women who accomplish the most in this life are the people who resolve to do something, and then do it. The aimless people who drift with the current all travel in the same direction, and the close of each succeeding year finds them a little farther down the stream.

It is generally conceded that the opening of a new year is a favorable time to form good resolutions, and it is doubtless true that more people attempt to reform on New Year's day than on any other day of the year.

The man in business has taken account of stock, and with his balance sheet before him, he scans each item with interest. He discovers frequently that he has not used good judgment in buying. Some lines are overstocked while others are badly depleted. He has been too liberal with credits, and as he looks over his accounts receivable, he finds too many in the doubtful list, and too large a percentage to be balanced by profit and loss. He finds by referring to his accounts payable that he owes more money than a year ago, and while the business shows a profit he discovers that it is represented in poor accounts and unsaleable goods. Then he passes an hour in good, solid thought, which results in a series of resolutions. He resolves that he will collect every dollar due him, at the earliest possible moment, and be more careful of credits in the future. That he will be a more careful buyer and pay closer attention to business. Almost every good business man finds it profitable to take an inventory once a year, and pass some good business

At South Chicago - Saturday was launched the first of a fleet of ocean going steamers, which are intended to carry cargoes between Chicago and European ports. This event marks America's inland metropolis, and will materially increase ats tonnage until it equals that of New York City. The number of boats registering at Chicago now exceeds those registering at any seaboard city.

> The question of a successor to ex-President Rogers of Northwestern University, at Evanston, seems to have been settled by the selection of Dr. Vincent, son of the famous Bishop of Chatauqua. A modern university president must possess not only profound intellectual gifts, but also an ability to manage men and finances, and Dr. Vincent possesses these qualities to a remarkable degree.

> The anarchistic outbreak in Vermont reminds us of the Maffia trouble in New Orelans a decade ago. The Italians, as well as other foreigners are welcome to homes in this land of liberty but they must not expect liberty to enforce their anarchistic ideas, which endanger the life and happiness of their fellow men.

Saleswomen

In the vast retail establishments of large cities, many women are employed as saleswomen.

Men formerly held the positions that women now hold, and while women's organism is less strong than men's, they are expected to do the same work. Their duties compel them to be on their feet from morning to night, and many of them, n a short time, contract those distressing complaints called "female diseases." -

Then occur irregularities, suppressed or painful menstruation, weakness, indigestion, leucorrhœa, general debility, and nervous prostration.

They are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues, and hopelessness.

In such cases there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. The following letters prove this. They also prove the value of Mrs. Pinkham's advice.

"Dear Mrs. Pinkham:—I take pleasure in writing you a few lines thanking you for your advice. I did just as you told me in taking your medicine, and owe my life to you. You are like a mother to your sex. I was awfully sick, was all run down and felt sick all over. I looked like a person brought out of the grave. My face was as whiteas the driven snow. I was always tired after doing a little work and would have to sit down. I was troubled terribly with headaches and my appetite was not good; also, troubled with shortness of breath something awful for about a month. I could not go up one flight of stairs without being tired and having to also, troubed with shortness of orests something awith for about a month. I could not go up one flight of stairs without being tired and having to stop to get my breath. I was feeling just as miserable as could be. I took two bottles of Lydia E. Pinkham's Vegetable Compound and cannot express my thanks to you for what your medicine has done for me."—MISS M. F., 35 Devon St., Grove Hall, Roxbury, Boston, Mass.

"I Can Work Every Day in the Week Now."

"Dear Mrs. Pinkham:—I write this letter for you to publish for the benefit of poor, suffering women. Lydin E. Pinkham's Vegetable Compound has done me a great deal of good. I have taken three bottles and feel like a new woman. When I began the use of your medicine I was hardly able to be up; could not do half a day's work. I ached from head to foot, was almost crazy, had those bearing down pains, and stomach was out of order. Now all of these troubles have left me and I can work every day in the week and not feel tired."—MRS. JENNIE FREEMAN, 402 Pennsylvania Ave., Lima, Ohio.

PEWARD Owing to the fact that some skeptical people have from time to time questioned the genuineness of the testimonial letters we are constantly publishing, we have deposited with the National City Bank, of Lynn, Mass., \$5,000, which will be paid to any person who can show that the above testimonials are not genuine, or were published before obtaining the writers' special permission,—Lydia E. MINSTREL SHOW

Local Council of the Order Delighted a Crowd at East Side Odd. Fellows' Hall.

The local council of the United Commercial Travelers gave themselves up to minstrelsy, in the professional sense at their entertainment on Saturday evening in East Side Odd Fellow's hall, and thereby scored a hit such as not often falls to the lot of amateur entertainers, Messrs. White and Vandewater acted as bones and Al. Spooner and M. C. Fish as tambor. Within the semicircle was any amount of burned-cork talent in musical as well as in humorous lines. The role of interlocutor was sustained by Frank Nicholson who did it to the queen's taste. The quartet by Messrs. Archie and J. G. Crawford, Edw. Toley and D. D. Bennett,

which closed part first, was a marvel. Part second contained a galaxy of specialties, a description of which this evening in Milwaukee... would be impossible. Some of the specialties, too, seemed impossible. But they pulled through and made a her vacation with her parents in this brilliant finish in each case, and the audience went wild with delight. The genuine, simon-pure minŝtrel show does not often win such warm commendation. Part two ended with a selection by the quartet already mentioned which could not be well surpassed.

The evening's gaiety closed with a dance which kept up close to the initial hour of Sunday. Prof. John Smith's orchestra furnished the music which is equivalent to saying that it was of the best grade.

IN A WAREHOUSE Weddings :

It is Almost Impossible to Secure Servant Girls at Any Price in lanesville.

Since the opening of the tobacco warehouses in this city it is almost impossible to secure servant girls at any price. The average girl prefers to work in a warehouse, where she can have her evenings to herself, to working in a private family. When the wage question is considered the girls have about as much money left at the end of the week when they work in a private family as they do

when they work in the warehouses. Private families are not the only ones clamoring for help. The proprietors of the warehouses are not able to secure enough girls to handle the esason's crop and are making every effort to get girls from the surrounding towns. Advertisements have been inserted in numerous newspapers, offering good wages and steady employment for a thousand girls.

STOMACH RELIEF.

The stomach is more often overworked than any other part of the human body. Countless numbers of people eat too much, and nearly every person in the world eats things that do not agree with the system. The stomach is the first organ to feel the evil effect and to suffer. The overplus of food and the things that are unwholesome, or often mildly poisonous are emptied right into the stomach and it is given the impossible duty of digesting and assimilating all this stuff: Is it any wonder then that the stomach suffers? Is it any wonder that it needs relief? When a man is overworked in this fashion he simply breaks down. Who can wonder then that the stomach is deranged by this unjust burden and must refuse to do its work?

It is because of this ignorant and unnatural eating that most people are afflicted with some sort of stomach trouble, which is usually followed by liver or bowel complaint. For this same reason nearly everybody needs a stomach regulator to strengthen and invigorate the stomach and enable it to do its work well. In this situation

JOHNSON'S **STOMACH** TABLYTS.

are the best possible remedy, because they give quick, sure and permanent relief. They act di- \$ rectly on the stomach, assisting it to rid itself of waste food and poisonous matter. They heal and strengthen the inflamed or weakened surface of the stomach give fresh vigor to the whole organ and aid it in its work of separating the strength and nourishment in the food from the waste matter, so that the valuable parts may be turned in new, healthy blood, bone, ffesh and muscle. In this way it keeps men, wemen and children strong and healthy.

JOHNSON'S STOMACH TAB-LETS are ivaluable in all cases of malaria, indigestion, constipation, diarrhoea, biliousness, and every form of stomach, liver and bowel trouble. They are unequaled for this purpose and never fail to effect a swift and lasting cure whe nthe directions are faithfully followed.

As a gentle laxative JOHN-SON'S STOMACH TABLETS are The little one gets no fat without an equal. They never fail to cause a movement of the bowels, no matter how acute the case may be. They can a so be used as a purgative by doubling or tripling the dose. If people could be made to realize how important to the health is the regular movement of the bowels, they would keep these tablets always at hand.

JOHNSON'S STOMACH TAB-LETS purify the blood, tone and keep the system in order and cure that tired feeling. They are for unirsal use. Even though you feel well, a tablet will make you feel better.

Get them from H. Kirk White, sole agent. Popular prices, 10c. 25c, 50c. Made by the Johnson Laboratories inc. Philadelphia.

it will go to him. Senator McGillivray is about rounding up twelve continuous years technical calculation of the volume in assembly and senate—a remark of freight and passenger traffic per able record. With Senator Baxter out, he has an eye on the chairmanship of claims, which he will hope to have if the senators do not choose him pressure. What the increase of taxation of railroads would be, if any—and likely there would be some increase—is irrelevant, if the system ident pro tem. The old clerks of senate and assembly, Houser of Mondovi and Nowell, respectively, will easy enough be re-elected. Both are high class officials; familiar with the dutiies of the office and honest.

Wrangle Likely Over Bills. The coming session will be an important one and possibly sensational. The primary election law must be passed in some form; and it must be made clear just what is to be the relation between the new administration and the great corporations. The tax commission will recommend something more vigorous in railroad taxation which will bring to Madison a big lobby and high railroad officials from far and wide. The Northwest 22-caliber, entered the head just above ern Mutual life is resisting the big the right temple, fracturing the skull. tax of the last session and already The doctors are uncertain as to the restorming the state with the pamphlet sults. protests of Vice President Merrill and its lawyer, Judge Dyer. 😘

There is a freak legislation brewing One man wants to stop football by law. A LaCrosse lawyer has a bill which shuts out sick people from matrimony. The corn shredder must either go or be made safe for children to play with. A number of counties want to be divided, and as one new one is proposed partly made up from Ashland, to bear the name of LaFollette, it will be a tempta-

tion to push the thing along. Chippewa county wants to be dividd, throwing the northern half which along the EscanabaSt. Paul ine uself. This it is said has real and I believe the county board canally approved it. Whether and Grand Rapids at the md of the county are still do not know.

There is a fear that the new administration will stir things up and no one knows what will happen. pressure for place is fearful; as Jere Murphy says, "the worst of it is, most of 'em want to hang up their hats in their new jobs Jan. 7." Even the scrub women, who get to work on their hands and knees in the marble corridors at four o'clock in the morning, are fearful of losing their jobs
